

The joy of painting: Albrecht Dürer 36-piece set with foldable water cup

Whether or not you are a professional, anyone can enjoy the new Albrecht Dürer watercolour set. With 36 water-soluble pencils, a Clic & Go water cup and size 10 watercolour brush in a metal tin, you have the chance to spend your free time more creatively. Brighter. More vibrant. More relaxing. For example: grab a sheet of paper and painting set for half an hour in an evening instead of staring at a TV screen or smartphone. And of course it is nice to have good tools for experimenting with your own creativity. A drawing transforms into a watercolour painting almost by itself when you use the Albrecht Dürer watercolour pencils. Depending on the paper used, the colour can dissolve fully. You may even create a work of art for eternity, for the high-quality and rich pigmentation of the pencils ensure a strong colour intensity with high resistance to light.
