

Sleek and elegant: Poly Ball Urban Ballpoint Pen

It writes and writes and writes... but this is more than just a pen. The Poly Ball is really rather multitalented: with its XB ink chamber containing ink that is document-proof and refillable, the nib glides smoothly over the paper, making this the perfect choice for those who often have to write for longer periods. The pleasant soft touch surface and ergonomic grip zone ensure maximum writing comfort. Last but not least, this ballpoint pen is also extremely stylish: matt stone grey, muted navy blue or rich black barrels in combination with anthracite socket and cap give the Poly Ball a puristic urban look.
